

At Dedupely, we are committed to safeguarding the security of our clients' data and systems. We have achieved ISO/IEC 27001:2022 certification, a globally recognised standard for information security management. This certification reflects our dedication to maintaining the highest level of security and compliance.

ISO/IEC 27001:2022 is the latest revision of the ISO 27001 international standard that specifies the requirements for establishing, implementing, maintaining, and continually improving an information security management system (ISMS). It provides a systematic approach to managing sensitive company and customer information, ensuring it remains secure.

We have also been awarded ISO 27017 and ISO 27018, two compliments of the ISO 27001 standard that focus on cloud security and privacy protection.

Our ISO certificate is available upon request by emailing us at help@dedupe.ly
